Subject: Walker River Paiute Tribe Air Quality Grant FY 2018

Hi Laura,

The Walker River Paiute Tribe wants to apply for the air quality grant for FY 2018. We had a question. Can we apply for the maximum amount of \$120,000 or is the funding divided up equally amongst the tribes and everyone gets the same amount every year due to continuing resolution. An example is my water pollution control grant. I have received the same amount of funding for the last ten years. We wanted to check on this before we put the budget together.
